Subject: Quarterly update PH permits coord
Date: Friday, October 6, 2017 12:02:59 PM
Attachments: [PH priority projects permit list updated Oct2017.xlsx](#)

Hello Managers!

It's been about 6 months since my last update to you (see email below) on the Portland Harbor permits coordination process. We have not met on the staff level since Feb 2017 when Evraz requested a meeting, but I thought an update would be good to keep coordination cohesive.

Attached is the updated list of projects we have been tracking, with updates in **red**. Three projects were added to the 'permits likely needed' list:

- Kinder Morgan Linnton's bank/beach project moved up from the 'unlikely, needs discussion list' and a permit was issued in Sep as well as a permit for the Willbridge location for a small beach removal,
- Gasco's project is only in the conceptual stage, and
- DEQ's sediment sampling of Willamette RM 16-26 application in process, but will likely need in-water work extension to be completed in Nov to meet EPA funding deadline.

We can convene a staff level meeting on these or others that develop, as requested by RPs/applicants. Let me or your staff member know if you have questions or would like additional information. Thanks for coordinating.

Subject: Evolution of PH permits coord meetings

Hello Manager Team!

As you may know, the staff reps agreed to suspend our regularly scheduled meetings on PH permitting. Recall that when we formed this group in 2013, we estimated 18 months of coordination. We are now approaching 4 years. Also, since the bankwork help tools are posted on the USACE website, part of our input can be on auto-pilot! Most of the remaining projects on our tracking list have a bank component that is yet to be determined whether EPA or DEQ will lead (if EPA leads, there is no permitting nexus, though NMFS BO will still need coordination...). The other projects are moving slowly, may have minimal cleanup nexus or are handled by agency reps other than those in this group (mitigation banking). So I revised the tracking sheet (attached) and we

agreed to hold meetings when requested by RPs/applicants on a case-by-case basis.

Since the staff-level meetings are now only on a case-by-case basis, I'm cancelling the regular quarterly check-ins with you as well. Should we have meetings/presentations on projects going forward, I will update you by keeping a quarterly tickler in my calendar. And, of course, you can always check-in with your staff rep.

Thanks for the opportunity to improve our coordination over these past 4 years. I think we really did improve and provided effective direction to RPs/applicants that was appreciated and helpful to them.
